We write in response to your letter dated November 26, 2013 regarding the Committee's September Monthly Report.

Regarding the contribution by the IBEW PAC Voluntary Fund, the Committee correctly disclosed it's receipt of this contribution. However, the donor disclosed this contribution as a nonfederal donation on line 29 of its report, and not as a federal contribution on line 23. While the contribution was eligible for deposit in the Committee's federal account, the Committee has transferred the funds to its nonfederal account, to respect the donor's evident preference regarding the treatment of this contribution. The Committee's Year end report will disclose this transfer.

Regarding Schedule H4 of the Committee's report, the Committee is amending its report to disclose the allocation ratio on Schedule H2.

If you have any further questions, please contact the Committee.

Sincerely yours,

Michael Kasper
